Dear Parent/Carer,

I trust this letter finds you safe and well.

From next week, Year 5 will be taking part in our new online learning initiative 'Learning by Questions'.

Learning by questions is a great way for children to engage with their learning and this is all completed by use of laptop or tablet. The children answer questions in a quiz format with each one being tailored to the individual pupil. It is great way to learn, responding to questions and then receiving instant, helpful feedback after every answer to guide learning and build confidence.

Mr. Watters will be hosting an introduction lesson at 1:30pm on Wednesday 13th January 2021. During this introduction, he will be talking through the principles of Learning by Questions and showing the children how to log on and use it. He will also be answering any questions from parents. From then, there will be multiple sessions a week on teams where your child can use the program.

If there are any issues with accessing teams for the meeting, there is a full guide on our website under the 'working from home tab' - <https://bloxwichacademy.co.uk/workingfromhome/>

We look forward to sharing this new and exciting learning platform with you.

May I thank you in advance for your continual support during these unprecedented times.

Yours sincerely,
