Dear Parent/Carer

Road Safety

I am writing to ask for your support in speaking to your son/daughter about safety, when travelling to and from the Academy. We have, over the last week, had several concerns raised by the local community and businesses about the conduct and unsafe behaviour of a small number of our pupils. The incidents have included crossing in front of lorries that have been reversing into business parks, crossing in front of cars, away from the crossing and dangerous behaviour, moving in and out of the road on bikes and scooters and if found to be irresponsible, they will be banned from bringing them into the Academy.

Staff have been vigilant on the entrances to the Academy, before and after school, encouraging pupils to be aware of potential dangers. This has also been addressed with various notices to pupils during the school day. Unfortunately, even with these measures in place, some pupils are not following the guidance.

I am sure you will agree, if we share this message as a team, we can ensure that our pupils are remaining safe.

Please support the Academy in reinforcing this important safety message.

Yours sincerely

A Seager (Mr)
Headteacher
