

Curriculum Intent: In the geography department we strive to create global citizens who are knowledgeable enough to make informed decisions and confident enough to verbalise our own views coherently.

Curriculum Rationale: In the geography department we strive to create global citizens who are knowledgeable enough to make informed decisions and confident enough to verbalise our own views coherently. The geography curriculum allows us to investigate the world around us by looking at different places, cultures, and landscapes. We can consider our own place in the world, giving us the opportunity to become global citizens and gets us ready to apply our knowledge to our future lives.

What makes the Bloxwich experience unique: You will visit a range of different locations to experience and explore what we have been learning, such as rivers, coastal locations (beaches) and regenerated cities. We aim to inspire pupils to consider and visit as many places as possible.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
7	What is our world like?	Why is our weather so unsettled?	Why have so many people settled in the West Midlands?	How powerful is the ocean?	What geographical factors affect Asia?	Why are rivers so important to us?
8	How can we manage tectonic hazards?	Where do most people live in the Middle East?	How can development change over time?	What links crime to geography?	What misconceptions do we have about Africa?	What affects population?
9	How do glaciers shape the world around us?	How sustainable is our world in the 21st century?	Why do some places become tourist sites?	What is Russia's place in the world?	What shapes our coasts?	What threats are posed by deforestation and desertification?
