KS3 Textiles & KS4 Textiles Design

Curriculum Intent: Within the Textiles department we strive to push innovative designers to understand and use the knowledge and expertise to create products/ garments which encompasses all backgrounds and styles.

Curriculum Rationale: Textiles Design can be defined as the creation of designs and products for woven, knitted, stitched or printed fabrics. At Bloxwich Academy we encompass all areas of this creativity by allowing our students to experiment with a variety of different techniques and mixed media. By the end of the KS3 rotation our students will be able to use their knowledge and skills to create and decorate a product by using a range of textiles techniques. Students will also understand different cultures and fashion that exists around the world and be able to choose the KS4 Textiles design course to develop their creativity and practical skills.

What makes the Bloxwich experience unique: Unlike many schools we **do not** expect pupils and parents to provide the tools or Fabrics pupils need for their lessons. We believe that all pupils should learn the vital life skill of Textiles and so no pupil will be disadvantaged because of the cost of materials. Therefore, we use our funding to buy all materials throughout KS3 & KS4 so that everyone has full access to our curriculum.
