4th September 2026

Dear Parents/Carers,

Year KS2 3D Printing Club

We are excited to introduce our new 3D Printing Club, giving children the opportunity to bring their own ideas to life!

The club will be led by Mr Watters and will take place every **Thursday from 3.15pm to 4.15pm**, starting on **Thursday 10th September 2026** with the final session on **Thursday 22nd October 2026**

During the club, children will learn how to use Tinkercad to design and create their very own 3D products. They will develop their creativity, problem-solving and digital design skills as they turn their ideas into 3D models. Once their designs are complete, we will 3D print their creations, allowing children to take their finished products home and proudly show off what they have made!

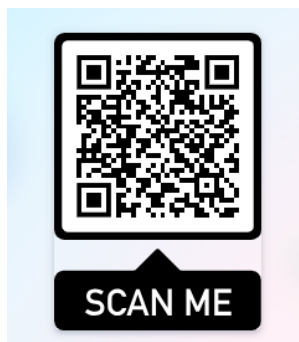

This is a fantastic opportunity for children to develop their computing and design skills while having lots of fun and seeing their digital creations become real-life objects.

We look forward to welcoming your child to the club!

Please click the QR code below to book your child's place via parent pay. Unfortunately, there is a limit on how many children we can have so please register your child's space as soon as possible.

Yours sincerely,

Ms S. Shepherd
