YOU SAID, WE DID

Parent Advisory Board

Autumn 2026

At Bloxwich Academy Primary, we value the voice of our parents and carers.
Following our recent Parent/Carer Forum, we listened carefully to your feedback and have taken clear action.
Here is how we responded:

You Said	We Did
Improve communication and access to information. Parents requested clearer communication about PSHE and RSHE, more accessible parent workshops, guidance on issues such as online safety, wellbeing, safeguarding and puberty, and improvements to school communications.	We will strengthen communication with families by introducing a half-termly PSHE and RSHE newsletter, providing recorded versions of parent workshops, sharing guidance on key topics through workshops, newsletters and the Parent Portal, and working with the IT team to address WEDUC notification issues.
Create more opportunities for parental engagement. Parents expressed an interest in becoming more involved in school life and supporting projects within the school community.	We will explore and promote opportunities for parents to volunteer, contribute to school improvement projects and take part in activities that strengthen partnerships between home and school.
Strengthen community links and wider partnerships. Parents suggested developing stronger connections with local organisations and community groups.	We will investigate opportunities to work with local partners, including community organisations and care settings, and support the Junior Leadership Team to contribute ideas for further developing the school's role within the local community.
