YOU SAID, WE DID

Parent Advisory Board

4th November 2026

Focus	You Said	We Did
Highlighting and providing information for parents who may need to access external support.	At the end of summer the letter highlighting what support there is externally was brilliant, but could this be done more frequently.	After the feedback it has been actioned that at the end of each half term a letter will be sent highlighting the external support services.
Navigating the school website to find what you need.	The website can be difficult to navigate especially if you do not use this frequently.	Central media team have been contacted to review the setup of the website to see if it can be made more user friendly.
Accessing work experience and careers events.	It has been difficult to support our children with completing the work experience forms due to not understanding the portal.	A support video to be created so parents can support their child to complete information.
Upcoming workshops	Parents said they do not always know what external services can provide for their child and family.	Reflexions workshop morning will take place on 24th November to give parents more information on their service and the support that is being offered.
